Where **Purpose Begins**

A LEGACY OF GRATITUDE. A FUTURE OF HOPE.

THE BEGINNING

A Legacy of Gratitude

Abdullah Foundation's roots trace back to Chiniot, where the Abdullah family embodied service and generosity. From the leather trade in Kolkata and Dhaka to the founding of Sapphire Group in 1971, Mian Muhammad Abdullah (Sitara-e-Imtiaz) built a diversified enterprise—textiles, retail, renewable energy—always guided by faith and purpose. Established as an expression of gratitude, the Foundation institutionalizes this spirit of giving through education, healthcare, vocational training, and disability inclusion.

VISION

To be the starting point of meaningful change in lives and communities.

MISSION

To support initiatives and individuals with the potential to create lasting impact – through education, healthcare, vocational training, and social welfare.

CHAIRMAN'S MESSAGE

Our journey is one of gratitude – to invest in people, to inspire hope, and to create opportunities that endure beyond us.

ADDRESSING CHALLENGES

Through its core pillars, Abdullah Foundation responds to the region's most persistent challenges.

OUR WORK AT A GLANCE

Education

Since 2002, the Sapphire School of Learning has provided quality education up to matriculation for children in Ferozwatan, Sheikhpura, serving over 1,500 learners and supporting 650+ families. The Abdullah Scholar Program supports more than 150 students across 15 top-ranked Pakistani universities, maintaining equal gender representation and facilitating education-to-employment pathways.

Disability Inclusion

The Foundation promotes dignity and independence for individuals with disabilities. Through Deaf Reach, over 430 hearing-impaired individuals gain employable skills in stitching, packaging, and machine operation, enabling meaningful employment within Sapphire Group.

Our partnership with NOWPDP established a Centre of Excellence for Financial Inclusion and a Textile Training Facility in Lahore, training over 500 participants annually with physical and mobility challenges.

We also provide comprehensive scholarships to visually impaired students at The Rising Sun Institute, covering academics, therapy, transportation, and extracurricular activities from grades 9 to 12.

Healthcare

Good health is the foundation of strong communities. The Abdullah Foundation strengthens hospital infrastructure and critical healthcare services, supporting institutions including The Kidney Centre, LRBT, SIUT, Indus Hospital, Aga Khan University Hospital, Shaukat Khanum Memorial Cancer Hospital, and Jinnah Hospital, among others.

Vocational Training

We empower youth through practical, demand-driven skills. Our Hunar Healthcare Program trains thousands in roles like Healthcare Assistant, Emergency Medical Technician, and Physiotherapy Technician, with over 84% securing employment within five months. The hospitality training center at Hunar FFASTI Campus, in collaboration with COTHM, prepares talent for culinary arts and hotel management. Through partnerships with AsheraiTech, TCF, and Khan Academy Pakistan, we advance digital learning opportunities, equipping learners with Advance IT skills and reaching hundreds of schools nationwide.
